The following action is in response to the proposed amendment received October 3, 2005. Entry of the proposed amendment is approved.

Allowable Subject Matter

Claims 7-9 and 11-17 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a system for controlling engagement and disengagement of a friction element as defined in claim 7, and particularly wherein the manual valve includes a third outlet, and a second friction element communicates with the line pressure source through the third outlet in the reverse state.

The art of record also fails to show or teach the system for controlling engagement and disengagement of a friction element as defined in claim 13 wherein the manual valve has a second land for opening communication to the line pressure source through a first outlet of the manual valve in the reverse state and for closing the communication through the first outlet in the forward state, and wherein a friction element communicates with the line pressure source through a hydraulic path that includes the manual valve and no other valve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner Comment

The amendment filed October 3, 2005 overcomes the objection to claim 1 set forth on page 2 of the previous Office action. Accordingly the objection is withdrawn.

The amendment also obviates the rejection of claims 1-9 under 35 USC 102(b) based on the Park et al. publication. Therefore, that rejection is withdrawn.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney H. Bonck whose telephone number is (571) 272-7089. The examiner can normally be reached on Monday-Friday 7:00AM - 3:30PM.
